

- Silence.

C. Commercial Conversion of Rights into Securities

Once bonded:

- The **court's trust account** (using your CQV/ALL CAPS name) is activated.
- A **performance bond** is created based on the expected "outcome" of the case.
- These bonds are **bundled and sold** on secondary markets via DTCC, Euroclear, and others.

This process:

- Monetizes **your appearance and presumed guilt**,
- Provides incentive to the court to proceed to judgment,
- Violates **Canon 2057** and **Maxims of Equity**, especially:
 - "No man shall profit by fraud."
 - "Equity regards that which ought to be done as done."

D. Court Officials as Executors and Trustees

Judges, clerks, and prosecutors:

- **Do not act as impartial public servants**, but as **trustees or executors of a private commercial trust**.
- They benefit from your **lack of rebuttal**, acting as **executor de son tort** to administer an estate to which they hold no lawful title.

This amounts to:

- **Breach of fiduciary duty**,
- **Violation of Canon Law and Trust Law**,
- **Commercial trespass** against the living man or woman.

"If one acts as an executor without lawful authority, they assume full liability for the consequences." – Trust Law Principle
